

Crown Residential Entrance Door

Our systems company has brought all of their design expertise to bear to create a modern classic - elegant doors, made from the most durable and strong material offering long-lasting and highly secure performance. We know there is no better door for a home and we know your customers will love them as much as we do.

These single and double French entrance doors have been designed to fit in anywhere around your home with 'front' and 'back' door options. Whichever is chosen you can be assured that when the doors are locked the property is secure every time.

Key Benefits

- Traditional design with slim sight lines.
- Low threshold option available.
- Virtually maintenance free.
- Split spindle handle operation option available.
- Dual colour available.
- Multi chamber aluminium profiles for strength and thermal performance.
- Designed as a direct replacement for the very tried and trusted Monarch system.

Handles

Designed and manufactured by one of Europe's leading brands of door and window handles, we offer an extensive and imaginative range of handle colours that compliment or contrast with the frame colour you choose.

DUALSECURE

DUALSECURE is a unique and innovative modular locking system providing progressive levels of security as required. The system consists of a tried and tested 3 hook multipoint lock, with 5 lever auxiliary lock and/or shootbolt options.
